About SurgiQuest

SurgiQuest, Inc. is a privately held venture-backed company, founded in May 2006. The Company develops, manufactures and markets innovative access technologies for minimally invasive surgery. SurgiQuest's patented AirSeal® System provides unprecedented access to the abdominal cavity during minimally invasive surgery ("MIS"). Unlike conventional insufflation and trocar systems, the Company's breakthrough integrated platform assures stable pneumoperitoneum, continuously evacuates smoke and plume when energized medical devices such as electrocautery, laser or ultrasound are used, and provides valve-free access to the abdominal cavity during both laparoscopic and robotic surgical procedures. Additional information about SurgiQuest products can be found at www.surgiquest.com.
